

DEXTERLIVE CONTROLS

MAXIMIZE REVENUE GENERATION

DexterLive controls offer many upsell features and promotion options to help you maximize revenue generation. With multiple upsell features for both washers and dryers, you can choose the perfect cycle offerings to fit your business.

Washers: Pre-Wash, Extended Wash, Extra Rinse, and Temperature Pricing
Dryers: Full Cycle Dry, Extend Dry, Free Dry, and Temperature Pricing

SIMPLE INTERFACE

DexterLive controls share a common interface across both washers and dryers making it easier for your customers to learn and understand.

Each control comes with durable rubber push buttons, an improved display, multiple language options, and common detailed customer prompts.

CUSTOM PROGRAMMING

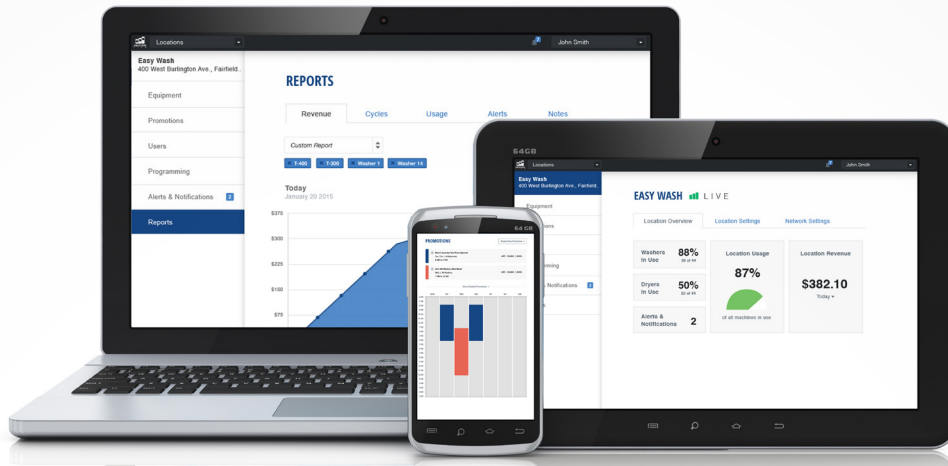

With DexterLive controls there is no need for proprietary software or devices. Free access to DexterLive.com allows you to create user files and customize your equipment to fit your store and business needs. Your custom files can then be saved and transferred to your equipment via the DexterLive network or with a USB drive. These new programming options make customizing your equipment faster and easier than ever before.

MAINTENANCE & INSTALLATION

DexterLive controls offer adjustable final extract speeds on washers and many other customizable features that make them flexible and perfect for most installations.

With the new quick test and error code features, you have the tools and information you need to keep your equipment running in top condition.

MEET YOUR SMART NEW BUSINESS PARTNER

DexterLive.com

Vended C-Series washers and dryers feature DexterLive controls and come with free access to DexterLive.com, our powerful new web app.

CUSTOM PROGRAMMING

DexterLive.com allows you to easily view, edit and save your cycle and price settings on your C-Series products.

Your custom files can then be sent through a DexterLive network or downloaded and transferred via USB, making programming your machines faster, easier and more convenient than ever before.

DexterLive controls can be easily updated with new firmware via a USB drive. This allows for the integration of new features and options for many years to come.

MAXIMIZE YOUR REVENUE

With multiple PLUS cycle features available for both washers and dryers, you can choose the perfect cycle offerings to fit your business needs.

Take advantage of the powerful promotional pricing option to set up different pricing structures throughout the week. This helps to balance your customer load and ensure maximum revenue.

Provide instant customer service with the Remote Access feature which enables you to provide a free start, reboot your machine, or set a machine to out of service remotely.

MANAGEMENT & TRACKING

When networked, DexterLive.com provides up-to-date tracking and reports showing your revenue, alerts, and machine activity.

Alerts and notifications provide feedback when an activity has occurred on your account.

The users section allows you to invite other people to help you track and manage your locations.

Take advantage of the notes section to keep detailed maintenance and service records on each of your Dexter products.
